Hot Water Bottles.

We don't claim that the Esquimo uses a hot water bottle but he would if we were running a drug store in Greenland; because we would call his attention to our complete line of these goods at bottom prices. We are liable to have some Arctic weather this winter—cold enough to make people think they're on an iceberg. It will be a good time then to think of our hot water bottles.

MARIETTA DAILY LEADER

SATURDAY, DEC. 19, 1896

PERSONAL AND LOCAL.

The Chicago Times-Herald of a recent date contained the following concerning a well known Beverly gentleman: "Mr. J. Brooks Dodge, one of the most successful wheat buyers in the west, is stopping at the Auditorium Annex, Chicago. He is enroute to Ohio, his former home, for a short visit." Blauvelt has exercised her womanly prerogative and has changed her mind again. For the present she has decided to give up the artist for the woman, and instead of fulfilling her engagement in the Dakota courts, remains Mrs. Royal Smith."

Clean, fresh meats and groceries at J. W. Wells & Co.'s, Greene street.

The wreck which occurred on the B. & O. S. W. at Hamden Junction Friday afternoon was one of the most remarkable ever known. Train No. 3, westbound, was running at a high rate of speed, when the engine struck a cow. Ordinarily an accident like this receives little attention, but fate was against No. 3. The body of the cow was thrown in the air and alighted upon a switch stand on which it was impaled. The switch stand was broken, the switch released and thrown while the locomotive was passing it. The train was knocked into an unrecognizable mass. The engine went over on its side in a ditch, the postal-car shot out the sidetrack against a loaded box-car and demolished. The loose rail of the switch went up through the floor of a coach and struck Conductor Brown in the groin, dangerously injuring him. One postal clerk was killed and another hurt. The engineer of the train was George Cutter, a brother of Judge Cutter, of this city, but he was not hurt. The fireman was badly bruised.

A marvel of choice goods for Christmas at Mrs. C. W. Holz's, 286 Front St.

A burning coal mine at Straitsville, Ohio, owned by Henry Elliott, of Zanesville, has been on fire since 1884. It is to be extinguished within the next few days through the efforts of Gov. Bushnell, Attorney General Monnet and State Mine Inspector Hazeltine. The people of Straitsville have appealed to those officials for relief. The mine was fired during the great strike of 1884, and Elliott has stubbornly refused to do anything toward putting out the flames. The earth on which Straitsville stands is involved in the burning mine beneath. The situation at Straitsville is aggravated by the fact that an epidemic of scarlet fever is raging. Miners in the vicinity are to contribute the work necessary to extinguish the flames.

Kindergarten's Christmas.

Miss Rebekah Nye's Kindergarten yesterday afternoon was the scene of a very pretty and delightful gathering, the occasion being a Christmas festival, closing the Fall term of the successful school.

Twelve little ones sat down to refreshments consisting of lemon ice and lady fingers, daintily served by Miss Nye. After this the children were in turn blindfolded, and struck at a suspended bag of candy which when hit, scattered the goodies about the room, causing a general frolic for the sweets.

As souvenirs, the children were presented with fancy little kindergarten conceptions of various kinds—each embracing work of Miss Nye's pupils.

Miss Nye will spend her vacation with friends in Chicago, leaving here on the 26th, and while there will visit the principal Kindergartens.

Constipation is the cause of all sorts of serious disorders of the blood. Strong cathartics are worse than useless. Burdock Blood Bitters is nature's own remedy for troubles of this sort.

Stabbed Him Five Times.

PARKERSBURG, W. VA., Dec. 17th.—"Gad" Collins, an oil man, created a disturbance at the office of Attorney Duty, in Pennsboro, this evening. Duty attempted to eject Collins. A fight followed, during which Duty was stabbed five times, two of his wounds being pronounced serious. Collins' head was badly cut by a heavy poker in the hands of his opponent. Duty was a candidate on the Democratic ticket for Judge of the Fourth Judicial District in the recent campaign.

With America the Lakes Excel the Seas.

Cleveland, Dec. 17.—The vessels now in commission on the great lakes are fast outnumbering the American craft engaged in the foreign trade. This is proven by statistics compiled by the Marine Review, which will be published tomorrow. The vessels on the lakes are shown to number 383, against 257 on the Atlantic and Gulf coasts and 45 on the Pacific coasts. The tonnage of the lake vessels is also almost 200,000 in excess of that of the salt water boats.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for Lung trouble. Trial Bottles Free at W. H. Styer's Drug Store.

LOOKING AHEAD.

Discovery. It doesn't work miracles; but it does what other medicine can't do—what doctors say can't be done—until they see it done right under their noses—it cures consumption. Not always; to say that would be an exaggeration, but in a large majority of cases; in advanced cases which have been given up as hopeless.

The "Discovery" is not called a consumption-cure; it is a blood-maker. It gives energy to the blood-making organs to create new blood, full of healthy red corpuscles, and a supply of pure, rich, red blood drives out all diseases that have their roots in the blood: Consumption is one of these; scrofula, malaria, eczema, erysipelas, catarrh—are others. It is absurd to doctor them separately as lung, or skin, or head diseases. They must be driven out of the blood. You can rely on the "Golden Medical Discovery" to do this every time.

It is not a patent medicine. It is the perfected result of 30 years, practical experience by one of the most skillful physicians and eminent medical authorities in this country—Dr. R. V. Pierce, Chief Consulting Physician to the Invalid Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's 1008 page book, "The People's Common Sense Medical Adviser," reached the enormous sale of 600,000 copies at \$1.50 each. This enormous sale having paid him a fair profit on the great amount of labor and money expended in producing it, he is now giving away absolutely free 500,000 copies, the recipient only being required to mail to him, at the above institution, 21 one-cent stamps to cover cost of mailing only, and the book will be sent post-paid.

Dr. Wood's Norway Pine Syrup is pleasant to take, positively harmless to the most delicate constitution, and absolutely sure to cure the most obstinate cough or cold. A household boon.

No need to suffer with rheumatism, lumbago, neuralgia, cramps or colic. Dr. Thomas' Electric Oil cures all such troubles, and does it quickly.
